## Stand with Aurelia. Stand against polluters.

In Guatemala, gruelling heatwaves are ravaging Aurelia's farm.

At the same time, the UK has long backed those with wealth and power – including the world's biggest polluters, whose actions are destroying Aurelia's farm and the livelihoods of many across the world.

But it doesn't have to be this way.

We believe in the unstoppable power of hope, and together we can play our part in God's work to restore creation and see the flourishing of all people.

**Sign the petition to call for the UK government to make reckless polluters pay for the damage they've caused.**

I believe the The UK Government must:

- Make polluters pay for the climate crisis they've caused
- And force lenders to cancel or renegotiate the debts of low-income countries.

**UK Government: stand up for people living in poverty.**
