

Harvest of hope

1 in 5

foods that you buy come from countries vulnerable to climate-related disasters.

Over 2 billion

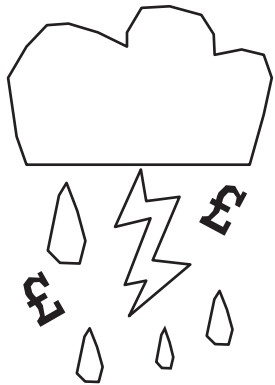

people globally face hunger, including 864 million who live with severe food insecurity.

'The earth is the Lord's and all that is in it.' (Psalm 24:1)

Lord God, the earth is yours and all that is in it.
We give thanks for the food we share
and ask your blessing on those who
grow, harvest and prepare it.
Forgive us when we fail to care for your world.
Inspire us to act for the good of our neighbours,
especially for those who do not have plentiful food.
Nourish us with your Spirit,
that we may be filled with energy to do your will.

In Jesus' name,
Amen.

Did you know climate disasters across the world make the food on your table more expensive?

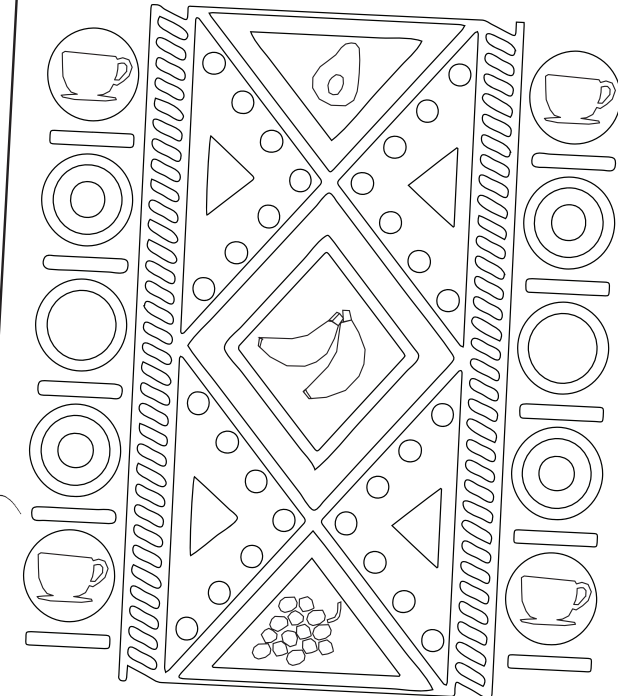

Your Harvest gift could support farmers in Sierra Leone.

'We find this project so helpful for us as farmers ... it has helped us ... greatly, with regards to the cultivation of our crops in the community and beyond.'

maize | beans | wheat | peanuts | peas | mangoes | bananas

These are some foods that grow in places where the climate crisis is making farming harder.

God we thank you for delicious food!
Thank you for farmers and people who cook for us.
Please help anyone who is hungry, and teach us how we can be helpers.
We pray for places where it is getting too hot, too rainy or too stormy, to grow the food that people need.
We pray for powerful people to step up and take action on the climate crisis.
Show us how to be kind to one another and how to love the world you have made.
Amen.
